A-K-01 - Kaheraamne 3+1 klaasiga aken tellisseinas

Kaheraamne 3+1 klaasiga puitaken tellisseinas: uus puitaken paigaldatakse seina välispinna suhtes samale sügavusele kui varem säilitades fassaadi välimuse. Sisemises raamis kolmekordne soojapidav klaaspakett. Näidatud on palede viimistlus, veeplekk, õhu- ja aurutõkke tihendamine ja muud tehnilised detailid.

Joonise tähis: **A-K-01**
